

TRANSITION

Using a diverse range of outdoor activities to develop an understanding of change and promote a

SELF CONFIDENT APPROACH TO TRANSITION BETWEEN SCHOOLS

Transition from Key Stage 2 to Key Stage 3 is the process of moving from primary to secondary school. It represents a crucially important stage in children's education. Secondary school represents, for most pupils, a very different environment from the one they have experienced in primary school. Administration, pastoral care and teaching and learning are all organised differently from primary school, largely because a secondary school is much bigger and has a greater number of pupils and staff. Our venues provide a microcosm of the experience where the focus is completely on recognising and adapting to change. The Transition Programme aims to make children feel supported, safe, happy and confident.

PROGRAMME MODULES

- **Orientation** to ensure the emotional and physical well being of each child.
- **All Change : Environmental Games** which introduce the concept of change in a fun way.
- **Change Challenge** : in an environment outside the classroom experience, pupils are presented with **Change Scenarios** where they are encouraged to consider their own and others' feelings, and the consequences of their actions, how to support each other and how to deal with unfamiliar situations.
- **Personal Responsibility** : learning to organise themselves and take responsibility for themselves.
- **Review and Reflection** : throughout the programme the children are encouraged to develop observation and self awareness. This culminates in a Campfire Reflection accompanied by toasted marshmallows.
